SAHIL RAWAT

New Delhi, India | sahilrawat1415@gmail.com| LinkedIn

PROFESSIONAL OBJECTIVE

Motivated Information Technology undergraduate with a strong foundation in programming, data structures, and software development. Seeking software engineering internship opportunities to apply technical skills, contribute to innovative AI/ML projects, and grow within a dynamic technology environment. Passionate about building scalable solutions and committed to continuous learning in emerging technologies.

EDUCATION

Dr. Akhilesh Das Gupta Institute of Professional Studies *New Delhi, India*

Bachelor of Technology in Information Technology | Expected: June 2028

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Python Programming, SQL

Gyan Sagar Public School — Class XII (CBSE) *85% | New Delhi, India*

Gyan Sagar Public School — Class X (CBSE) *89% | New Delhi, India*

TECHNICAL SKILLS

Programming Languages: Python, C++, SQL, HTML, CSS, JavaScript (Basic)

Python Libraries & Frameworks: Pandas, NumPy, Matplotlib

Developer Tools: Git, GitHub, Jupyter Notebook

Core Competencies: DSA, Object-Oriented Programming (OOP), Data Science

Soft Skills: Problem-solving, Analytical Thinking, Technical Documentation, Collaborative Development, Self-directed Learning

PROJECTS

Python Trading Bot | Binance Futures Testnet CLI Application (BOT) *2026*

Tech Stack: Python, REST API, HMAC-SHA256, Click CLI, Logging

- Built a Python CLI trading bot for Binance Futures Testnet supporting MARKET, LIMIT, and STOP_MARKET orders with real-time REST API integration
- Implemented HMAC-SHA256 authentication and direct API handling, ensuring reliable order execution without external SDKs
- Designed modular architecture with strong validation and exception handling, preventing invalid trades and improving system stability
- Integrated interactive CLI (Click) and structured dual logging (console + file) for usability, debugging, and audit tracking

Personal Portfolio Website | HTML, CSS, JavaScript(PORTFOLIO) *2025*

- Designed a fully responsive portfolio using semantic HTML5 and CSS3, following modern web standards and best practices
- Implemented interactive UI elements with vanilla JavaScript; showcased projects, skills, and contact details with clean navigation

IPL Data Analysis Dashboard (Streamlit) *2026*

• Built an interactive dashboard using Python, Pandas, and Streamlit to analyze IPL match data (300K+ records)

• Performed data cleaning and feature engineering on ball-by-ball dataset

• Computed key metrics such as strike rate, consistency, death over performance, and toss impact

• Developed player comparison and team analysis modules with dynamic filters

• Visualized insights using Matplotlib and KPI-based UI design

• Deployed application on Streamlit Cloud for real-time access

CERTIFICATIONS

- Web Development Certificate (WEBDEVCERTIFICATE)
- Python Programming Certificate (PYTHONCERTIFICATE)

- Data Science Certificate (DATASCIENCECERTIFICATE)

TECHNICAL DEVELOPMENT & LEARNING

Data Science Skill Development — Self-directed Learning Path *2025 – Present*

- Actively developing data analysis capabilities through hands-on projects with Pandas, NumPy, and Matplotlib libraries
- Building foundational understanding of data manipulation, statistical analysis, and data visualization techniques
- Completing structured SQL practice problems focused on query optimization and database design principles
